107's Back to the Future Roadmap

This presentation is a supplementary guide sharing the steps and requirements to restart our activities and venues as COVID restrictions ease.

It has been developed to align with our COVID Safe Plan and to provide practical advice so we can confidently and safely welcome people back to 107.

STATE OF PLAY

Our Approach

- To reopen 107's venues in a safe way during the COVID19 pandemic.
- To manage the risks associated with reopening the venues and restarting our public activities.
- To ensure the safety of staff, visitors, and the community inline with NSW Health advice.
- To reduce the risk of spreading COVID19 and protect our community.
- 107's purpose, values and principles upheld

107

Our Framework

- **Workplace Health and Safety (WHS)**

Ensuring the health and safety of our workers.

- **Civil Liability**

Ensuring the health and safety of our community members.

- **World Health Organisation**

Informed by best practice public health and social safety measures.

- **NSW Government/Department of Health**

Knowledge and Compliance with associated, mandated government restrictions.

- **SafeWork Australia**

Operating in accordance with best practice standards and guidelines.

- **107's COVID Safe Plan**

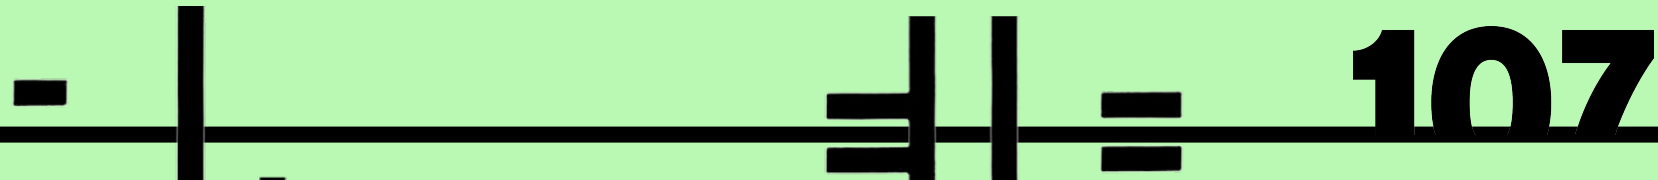

Our plan to keep all 107 Humans Covid Safe.

- **Risk Assessments**

Identifying and managing our specific risks.

- **Individuals**

Taking personal responsibility for your actions to reduce the spread of COVID19.

Risk Management

A risk assessment has been carried out for each of 107's workplaces and activities, and is maintained as needed.

The workplaces and activities that have been assessed are:

- Employee workspaces
- Resident workspaces
- General Events
- Bar Service
- Catering
- Work Related Travel and Deliveries
- Public Accessible Space (Coworking & Exhibitions)

Our **COVID Safe Plan** summarises all the identified actions from these Risk Assessments.

New activities are required to conduct their own specific Risk Assessment before commencing. A helpful template is located [here](#) if required.
